

CerpPassRx is pleased to administer your prescription benefit plan.

About Us

As your new prescription benefit manager (PBM), CerpPassRx provides innovative pharmacy solutions and tools to assist you in managing and navigating your prescription benefit. Our team of pharmacists, patient advocates, and member service representatives work to provide you the medication you need, easily and cost-effectively.

Maximize your Prescription Benefits

First, please review your ID card for our logo, or verify with your employer that you are covered by CerpPassRx for your pharmacy benefit plan. CerpPassRx members are able to access our pharmacy benefit plan resources in a number of ways:

Convenient Pharmacy Locations - Our broad pharmacy network includes all national chains and most local pharmacies. Please refer to your benefit documents for copay information for prescriptions filled at retail pharmacies. Save the most money by choosing generic medications when possible.

We Are Your Advocate, We Are Your Solution - If your treatment plan calls for high-cost medications, our Prescription Optimization Program assists members with obtaining critical, high-cost medications at a more affordable price. If you have any questions regarding this program, please call the POP team at **(469) 888-6812** or email us at PAPOPfax@FPBrx.com.

Organize Your Medication with Your Personal Website - Included in your pharmacy benefit is free access to a private and secure website. You will be able to access it with your Pharmacy Member ID number to compare prescription drug prices, map your way to the nearest network pharmacy, track your family's drug spend, organize your health history, and much more! Visit www.cerpPASSrx.com/cerpPASS-member-login, click the "Member Portal Log in" button on our home page to access your member information now.

Good Health is in the Palm of Your Hands - Our free CerpPassRx mobile app allows you to access all of the great features from your personal website on-the-go. Once you have your Member ID number, use your smart phone to find a nearby pharmacy, compare medication prices, review drug information, and more!

Prior Authorization - Your prescription benefit program may have a prior authorization process for certain medications. Prior authorization is a requirement that your physician obtain approval from CerpPassRx to prescribe a specific medication for you.

We are here to assist plan members day and night! We are available to our members 24 hours/day, 7 days/week. Please contact us at **(469) 888-6806** for any questions regarding your pharmacy benefits.
